2. CREDIT, LOCKBOX & COLLATERAL PROTECTIONS (ZERO SPECULATIVE HARDWARE RISK)

- **100% Contract-Backed Drawdowns (No Speculative Inventory):** Equipment funding occurs strictly simultaneous with an executed **36-to-60 month Hell-or-High-Water Take-or-Pay Contract** with an approved creditworthy counterparty (Investment-Grade Enterprise, Defense Prime, or Tier-1 University / Research Institution).
- **Direct Bank Lockbox Waterfall:** End-customer monthly contract payments are wired directly into a Lender-controlled Lockbox Account, with equipment lease debt service and insurance swept first every month prior to any Sponsor distribution.
- **48-Hour Portable Skidded Collateral:** Unlike brick-and-mortar facilities, 100% of the financed equipment sits inside a portable 40-ft ISO modular skid (non-affixed personal property with a recorded Landlord UCC-1 Collateral Waiver) that can be unbolted, crane-lifted onto a flatbed, and relocated within 48 hours.
- **Full OEM Warranty & Insurance Wrap:** Covered by 3-to-5 year OEM mission-critical hardware maintenance warranties (Dell / NVIDIA / Vertiv) and all-risk equipment breakdown / inland marine insurance naming Lender as Loss Payee.
- **1:1 Utility Pass-Through:** 100% of metered electricity is passed through 1:1 to the end-customer with zero commodity exposure to the equipment facility.

3. REQUESTED INDICATIVE TERMS FROM EQUIPMENT LENDER

- **Maximum Advance Rate / LTC** on Turnkey $30,000,000 OEM Invoice *(Target: 85%–100% via Tax Lease / Equipment Facility)*
- **Indicative Monthly Lease Rate Factor / Implicit Rate** across 36, 48, and 60-Month Tenors
- **Tax-Lease / IRC § 168(k) Bonus Depreciation** Monetization Appetite ($30,000,000 Depreciable Basis)
- **Minimum Offtaker Credit Criteria** required for simultaneous contract-backed funding
