SHADOWGRID — BROKER DISTRIBUTION, OPS GATE & LEGAL POINTS (ASD-STE100)

> **Partner Role Summary:**
> • **Al (Partnerships):** Commercial real estate (CRE) brokers are our **wholesale distribution engine**. One senior broker at `Valcor`, `CBRE`, `Cushman`, or `JLL` controls 15–30 buildings.
> • **Neal (Operations):** Verifies the **3 electrical photos** per site and manages the `$250,000` **turnkey site plug** (`480V` feeder, sub-meter, `288F` fiber, precast mats).
> • **Dub (Legal):** Structures our stealth **90-Day Option & 5-Year NNN Parking/Utility License** under `Bexar Commercial Utility Easements LLC`.

1. FOR AL (PARTNERSHIPS): BROKER DISTRIBUTION PLAYBOOK

- **Wholesale vs. Retail:** Do not call 100 landlords one by one. Partner with 5 senior industrial/flex brokers to unlock 100 buildings at once.
- **Fast `$25,000` Fee for Zero Work:** We lease **12 empty rear parking spaces**, require `$0` **Landlord TI**, and pay a **flat `$25,000` broker fee** at turn-on (`$250,000` for 10 sites).
- **Adds `+$1.4M` to Their Landlord's Building:** We pay `$7,500/mo` **NNN (`$90,000/yr`)** for 12 parking spots (`3x` cell tower rent). At a `6.5%` cap rate, that adds `+$1.38M` **in instant building value** at `$0` cost to the owner.
- **Strict Stealth Rule:** Always present as `Bexar Commercial Utility Easements LLC` installing a **"Corporate IT & Edge Telecom Utility Enclosure."** Never mention AI or `$60M` pods so landlords do not raise the `$7,500/mo` rent.

> **Al's 45-Second Broker Pitch Script:**
> *"Hey `[Broker Name]`, we represent `Bexar Commercial Utility Easements`. We lease 12 rear parking spaces at industrial and flex buildings across San Antonio for self-contained corporate IT utility enclosures.*
> *For any building in your portfolio with a `2,000A–3,000A` (`480V`) panel and `1.5 MW` of spare transformer capacity: (1) We pay your landlord `$7,500/mo` **NNN (`$90,000/yr`)**—adding `+$1.4M` **in cap-rate value** with `$0` **Landlord TI**; (2) We pay **100% of our sub-metered CPS electric bill** and give the building **100% power priority**; and (3) We pay you a **flat `$25,000` commission per site** at turn-on (`$125,000` for 5 sites). Which 5 buildings in your portfolio have the heaviest `480V` power right now?"*

2. FOR NEAL (OPS): 3-PHOTO GATE & $250K SITE PLUG

Ops Rule: Never commit a dollar or sign a lease until the building engineer texts these **3 photos**:

Photo #	Target Component	What Neal & Electrician Check	Pass Standard
Photo 1	**Outdoor Green CPS Transformer Tag**	`kVA` rating and `480Y/277V` voltage.	`1,500–3,000 kVA` on pad today (`0–day` wait).
Photo 2	**Indoor Main `480V` Breaker Tag**	Main breaker amps and spare tie-in bucket.	`1,600A–3,000A` at `480V` (`3–Phase`).
Photo 3	**Last August CPS Electric Bill**	Subtract peak summer `kW` from transformer `kVA`.	`1.2–1.5 MW` of spare unused power.

Turnkey `$250,000` "Prepared Site" Scope (14-Day Build, Funded by Deposit/Partner): (1) **Power Feeder & Sub-Meter (`~$155k`):** Armored `480V` feeder + ANSI C12.20 sub-meter + `MaxLPS` building-priority CT clamp; (2) **Fiber Conduit (`~$45k`):** `2–inch` conduit with `288–strand` fiber pull; (3) **Precast Pad & Screen (`~$50k`):** Precast concrete crane mats on existing asphalt (`zero digging`) + `8–ft` privacy screen.

3. FOR DUB (LEGAL): 6 SUGGESTED COMMERCIAL DEAL POINTS

1. **90-Day Exclusive Option (`$0` Rent Until Turn-On):** `$100` option fee for 90 days of inspection. Base rent (`$7,500/mo` NNN) starts **strictly on the day the unit is energized**.
2. **20-Year Control:** `5–year` initial NNN term + three automatic `5–year` renewals (`3%` annual escalator) for 12 parking spots + conduit pathway.

3. **CPS Sub-Meter Pass-Through (`0%` Markup):** 1:1 reimbursement of exact sub-metered CPS kWh/demand charges (`0%` markup per CPS rules) + hardware covenant giving the building 100% power priority.
4. **Removable Equipment / Tax Shield (`IRC § 168(k)`):** Confirm all enclosures, skids, and mats remain **48-hour removable personal property** (not fixtures), exempt from landlord liens/mortgages via a 1-page Lender SNDA so our capital partner claims **100% Year-1 bonus depreciation**.
5. **Unrestricted Assignment / Sub-License:** Right to assign or sub-license to our capital partner or compute operator without landlord consent.
6. **1-Page Pocket Memorandum:** Recordable in Bexar County upon option exercise.
